In continuation with the successful 1st Asia Dengue Summit, the Asian Dengue Vaccination Advocacy (ADVA) Group is all geared up to review and find means to tackle the pressing global issue – Dengue. The meeting will be held on the 1st and 2nd of March at Manila, Philippines. The highlights of the discussions will be centred on understanding dengue outbreak statistics and implementation of dengue vaccination programmes in the Asia-Pacific region, current scenario of vector control strategies to prevent dengue epidemic, management of dengue-related morbidity and mortality through early diagnosis and effective treatment strategies.

A lot more action is planned for the 2017 Asia Dengue Summit, join us as we bring about an anti dengue revolution!

Key Topics of Discussion:
1. Dengue Vaccine Development
2. Dengue Education Programme
3. Vector Control and Diagnostics
4. Cost Effectiveness of Vaccine Intervention

Welcome message

Dear Colleagues,

On behalf of the Asia Dengue Summit Organising Committee, we are pleased to formally invite you to attend the 2nd Asia Dengue Summit to be held from 1st to 2nd March 2017 in Diamond Hotel, Manila, Philippines.

Riding on the overwhelming success of the inaugural Asia Dengue Summit, the organising committee is geared to organise the 2nd Asia Dengue Summit. The summit will provide a unique opportunity for everyone in the dengue community (clinicians, researchers, government public health leaders and policymakers) to come together to exchange ideas, updates and achievements on dengue management strategies for the region.

Along with dengue experts from academies and research institutions, Representatives from the regional and global World Health Organisation (WHO), the Asian Dengue Vaccination Advocacy (ADVA), the Southeast Asian Ministers of Education Organisation Tropical Medicine and Public Health Network (SEAMEO TROPMED) and the ASEAN Network for Drugs, Diagnostics, Vaccines and Traditional Medicines Innovation (ASEAN-NDI), the Global Dengue and Aedes-transmitted Diseases Consortium (GDAC), the International Vaccine Institute (IVI), the Partnership for Dengue Control (PDC) and the Fondation Mérieux (FMx) will participate to provide a broad overview of the current status of dengue and its management across Asia.

The Asia-Pacific region has been witnessing an alarming rise in dengue. Rising temperatures and increasing numbers of urban settings are making the situation more rampant, despite implementing vector control and prevention strategies. It is therefore important to consider the introduction of all new available tools for vector control and vaccination to gain better control on this serious disease. Such a wide representation of key stakeholders at the 2nd Asia Dengue Summit will help throw light on the burden of dengue, its management, new vector control strategies and successful vaccine introduction across the region. Countries will also get an opportunity to share and discuss surveillance, diagnostic, potential introduction of the dengue vaccine, vector control and mathematical modeling.

The local organising committee is working relentlessly to make this summit a fruitful platform of learning and collaboration. I urge you to come and join us in Manila and take home with you valuable insights on dengue management and the many wonderful sights, sounds and experiences from the scenic country!

Warmest Regards,

Prof. Usa Thisyakorn
Asian Dengue Vaccination Advocacy (ADVA) Group

Dr. In-Kyu Yoon
Global Dengue and Aedes-transmitted Diseases Consortium (GDAC)

Dr. Pratap Singhasivanon
SEAMEO TROPMED Network

Dr. Valentina Picot
Foundation Mérieux (FMx)

Scientific Programme Overview

**Wednesday 1st March.**

Session 1: Opening Ceremony & Opening Pleanary
Session 2: Dengue Field Epidemiology and Surveillance
Session 3: Lunch Symposium
Session 4: Dengue Vaccine Development and Oral Thematic Presentations
Session 5: Dengue Vaccine Preparedness and Cost Effectiveness of Vaccine Interventions

**Thursday 2nd March**

Session 6: Vaccine Implementation Programme
Session 7: Dengue Control: Diagnostics and Education Programme
Session 8: Lunch Symposium
Session 9: Free Presentations
Session 10: Public Acceptance of Dengue Vaccine-Challenges and Strategies

Trade Exhibition throughout both days

If you are interested in taking part in the exhibition please contact the secretariat at info@adva.asia, for the sponsorship and exhibition brochure.
Registration Form:

Title: Dr/ Prof/ Assoc Prof / Mr / Mrs / Ms / Other

Family Name: ____________________________  Given Name: ____________________________

Designation: ____________________________  Organisation: ____________________________

Address: ____________________________________________________________

Postal Code: ____________________________ Country: ____________________________

Primary Contact Number: ____________________________  Secondary Contact Number: ____________________________

Email: ____________________________________________________________

Preferred Name On Badge: ____________________________________________

Arrival Date (If you are coming from outside of Singapore): ____________________________ (dd/mm/yyyy)

Dietary Requirements (if any): ____________________________________________

☐ I agree that the email address can be distributed to participants of the event.

Registration Fee:
